THE STARTING POINT

No debt.

Most beauty brands carry years of old bottles, old claims and old logos. Every new idea has to fit around what's already on the shelf.

We start with nothing to undo. One object. One active. Built right the first time.

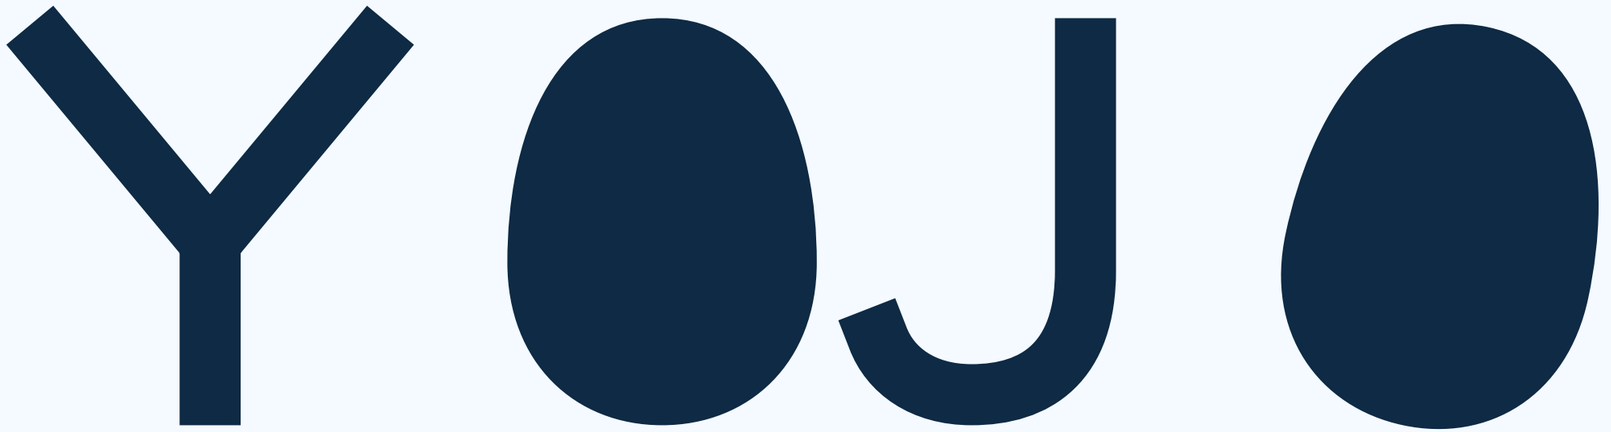

No design debt. No product debt. So the product gets to be the whole brand.

VOL.01 · YOJO CREAM

The egg is the brand.

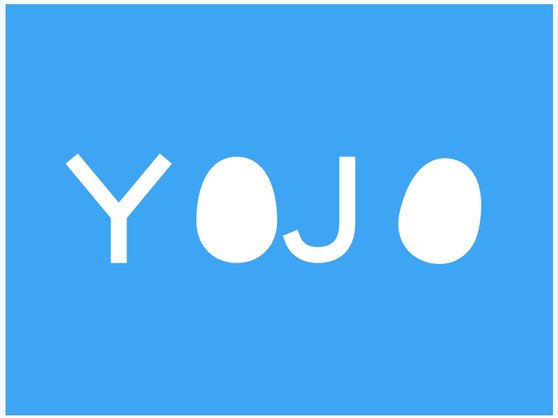

SKIN	Soft-touch silicone, weighted base. It wobbles and stands back up.
HEAD	Satin-silver knurled disc. Twist up to open, press to dispense, twist down to lock flush.
INSIDE	30 ml GHK-Cu copper peptide cream in an airless refill cup.
REFILL	Keep the egg. Swap the cup.

The O's are eggs. Both are the product's silhouette, filled solid.

The second egg wobbles. It sits at 12°, our wobble angle.

Y and J stay thin. Wide, square-ended strokes so the eggs carry the weight.

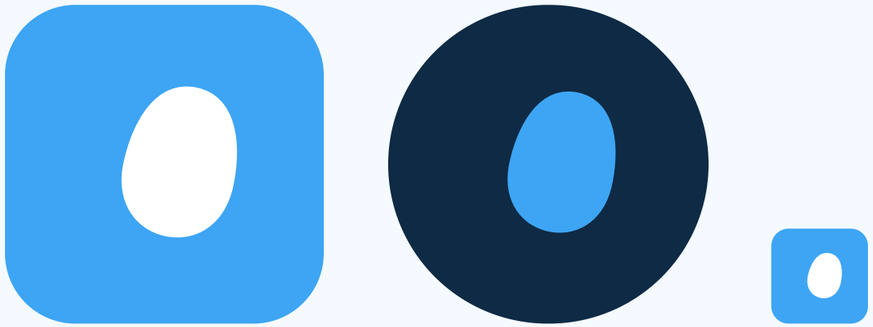

Clear space: one egg width on every side.

Minimum size: 64 px wide on screen, 18 mm in print.

Colors: white, ink or sky only. Never on silver, never outlined, never stretched.

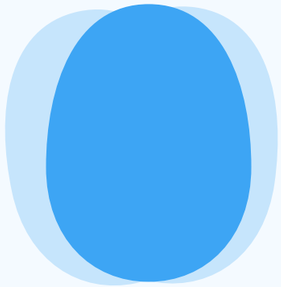

ICON

One egg, tipped 12°.

The second O of the wordmark, on its own. Use it for the favicon, app icon, social avatar, stickers, the bottom of the carton and the seal on refill cups.

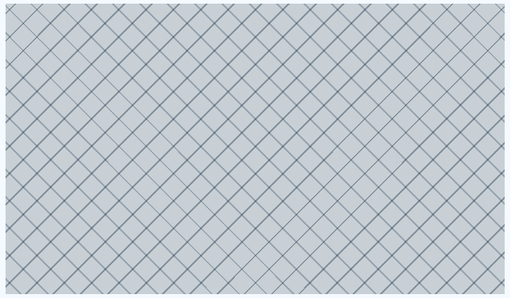

12°

MOTION

Everything that tilts, tilts 12°.

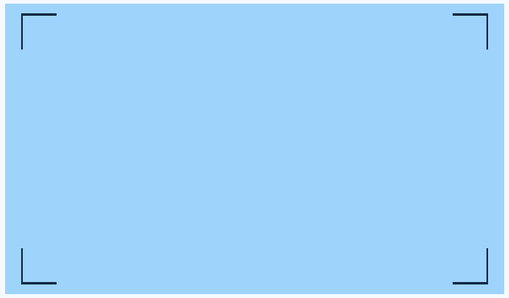

ANGLE	12° is the brand tilt: the logo egg, photo crops, stickers, product shots.
ROCK	Tipped eggs swing back in three shrinking rocks and settle in about 1.2 seconds.
TWIST	One full turn to open or lock, with a click at each end.

Knurl band. The head's diamond grip, used as a rule, border or tape.

YOJO VOL.01 GHK- 30 C14H22CuN6O4 AIRLESS REFILLABLE CU ML

Spec strip. Lab facts set vertically on the edge of every poster.

Crop marks. Printer's corners from 90s print ads. They frame photos and pages.

Volumes. Every product is numbered like a magazine issue. Cream is VOL.01.

DISPLAY · ARCHIVO EXPANDED BLACK

Blue on purpose.

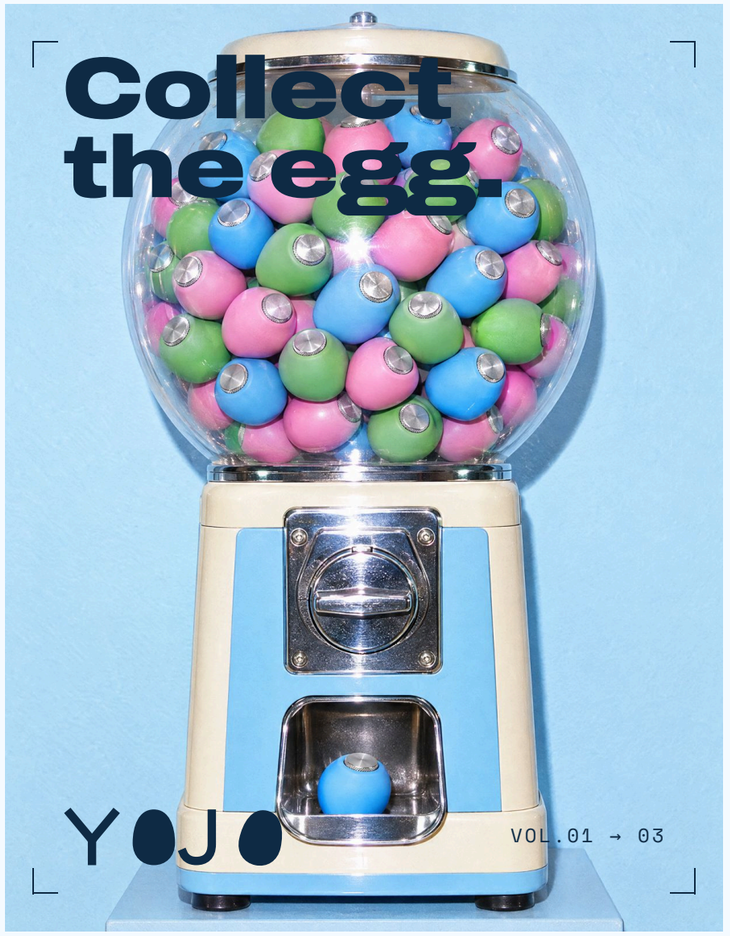

TEXT · ARCHIVO

GHK-Cu is a copper peptide. It's why the cream is pale blue. Skin looks smoother, firmer and more even.

SPEC · SPACE MONO

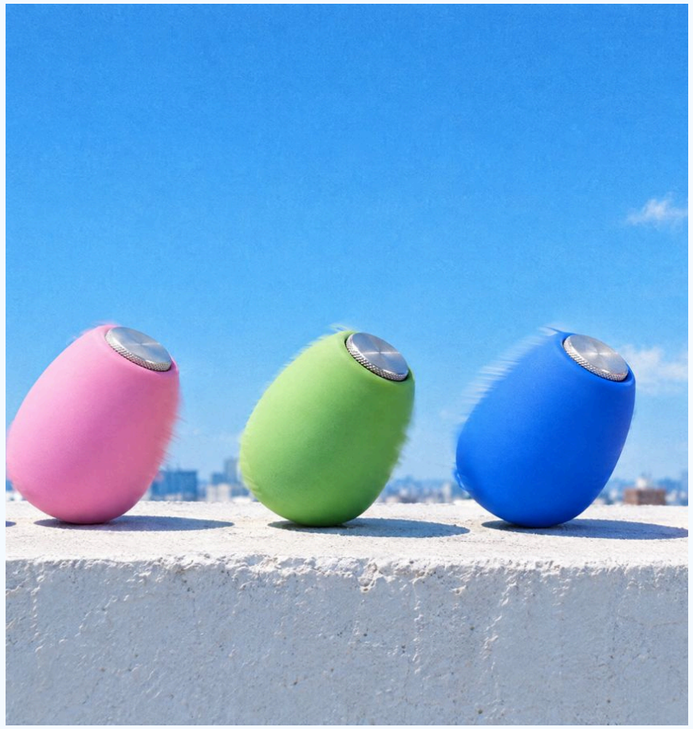

GHK-CU · C14H22CuN6O4 · 30 ML · AIRLESS · VOL.01

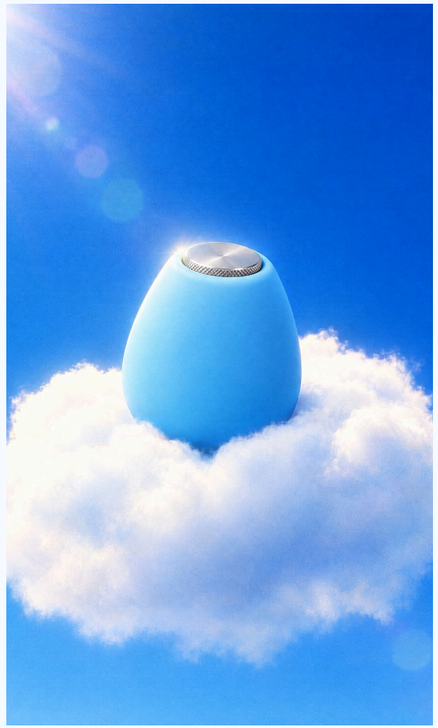

The template: full-bleed sky photo, one huge headline, crop marks in the corners, the spec strip on the edge, the wordmark or egg once. Never more than five words of headline.

Big sky. Bright, saturated, a few clouds. The egg is the only object that matters.

Film, not CGI. 35 mm grain, hard summer light, flash when it's close.

Scale games. Egg as a blimp, egg on a cloud, egg in a pool. Never a lab bench.

HOW WE TALK

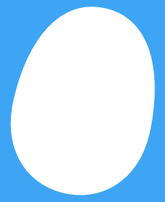

Short. Specific. A little smug.

Say what it is and what it does. Use real numbers and real ingredient names. Let the object be the joke; the copy stays dry.

Cosmetic claims only: visibly smoother, firmer-looking, hydrated. Never "boosts collagen", "repairs" or "treats".

Blue on purpose.
Twist. Press. Lock.
Keep the egg. Swap the cup.
Heavy for a reason.
Wobbles. Doesn't spill.
One egg. About 150 presses.
Collect the egg.
No debt.

Something green

Each line launches in its own color, numbered like an issue. Limited colors and colored-metal heads come later as numbered drops, never as the core line.

CONSTANT	Egg silhouette and satin-silver knurled head. Recognizable without reading.
VARIABLE	Skin color, by volume.
ON THE SKIN	YOJO over GHK-CU, debossed in the same color.
GIFT SET	The half dozen in a silver egg carton.

Don't.

- No Asian characters, anywhere.
- No white logo on silver.
- No mirror chrome.
- No peach, clear or frosted skins.
- No outlined or stretched wordmark.
- No lab benches or medical styling.
- No drug claims.
- No headline longer than five words.
