Capsule case · deboss spec

ZUMA Tides · silicone travel case for one 3 mL vial · Rev A · all dimensions in mm

STAMP MAP, UNROLLED, DRAWN TO SCALE

around: 72.26 (Ø 23) · up: height from seat

stamp zone · keep-out (domes, seam ±1.5) · ---- parting seam

THE STAMP

true size
7.5 × 7.19

5× for reference

- **Artwork:** ZUMA crest, small-size cut (`zuma-crest-stamp.svg`, vector). Do not redraw or thicken.
- **Size:** 7.5 mm across the petal tips, 7.19 mm tall. Same size on every stamp.
- **Deboss depth:** 0.40 mm (±0.05), flat floor, 10° draft on the walls, 0.10 mm radius on the top edge.
- **Finish:** body matte (VDI 3400 Ref 27–30), stamp floor polished smoother so the crest reads by sheen as well as depth.
- **Count:** 20 stamps: 4 rows × 5, rows 2 and 4 turned 36° so the crests sit in a brick pattern.
- **Tilt:** each crest turned by the angle in the table (6° to 24°, either way). Keep the angles: they make the pattern look tossed, not printed.
- **Keep-outs:** nothing on the domes, nothing within 1.5 mm of the seam, nothing on the flat seat.

CAPSULE

- **Outside:** Ø 23 mm; 62.4 mm tall standing (64 mm tip to tip before the seat is cut).
- **Ends:** full hemispheres, R 11.5. The bottom is cut flat to a seat Ø 11.8 mm so the case stands upright.
- **Halves:** two halves join at a fine parting seam 31.2 mm above the seat; 0.3 mm wide, 0.3 mm deep groove.
- **Cavity:** fits one 3 mL vial with its crimp cap, snug, no rattle. Confirm against a physical vial.
- **Material:** silicone, Shore 40–50A, opaque, colour through the body.

COLOURS, ONE PER RESEARCH AREA

Coral
Dermal · #FF6A55

Lemon
Endocrine · #F4D63A

Match to the hex values. Send a moulded swatch of each colour for approval before the run.

STAMP TABLE

#	Row	Height (mm)	Around	Arc (mm)	Tilt
1	1	16	0°	0.00	+21.6°
2	1	16	72°	14.45	+14.1°
3	1	16	144°	28.90	-9.3°
4	1	16	216°	43.35	+17.3°
5	1	16	288°	57.81	-7.7°
6	2	25.5	36°	7.23	+8.6°
7	2	25.5	108°	21.68	-16.7°
8	2	25.5	180°	36.13	+23.4°
9	2	25.5	252°	50.58	-17.2°
10	2	25.5	324°	65.03	-7.1°
11	3	38	0°	0.00	-21.8°
12	3	38	72°	14.45	-20.0°
13	3	38	144°	28.90	+13.9°
14	3	38	216°	43.35	-15.3°
15	3	38	288°	57.81	+15.0°
16	4	47	36°	7.23	-14.2°
17	4	47	108°	21.68	+13.3°
18	4	47	180°	36.13	-18.7°
19	4	47	252°	50.58	+19.6°
20	4	47	324°	65.03	+6.5°

Height is from the flat seat to the crest centre. Around is measured from a datum line along the body; arc is the same distance along the surface.
